We also wanted to give you an update on the circumstances at EDS. Kelly has hired people to fill all open positions and as of next Monday they will all be on board. Please keep in mind that there is at least a 6 – 8 week learning curve for all these new people. We know they are doing their best to get them all trained as fast as they can but also want to ensure they are *well* trained. Once they are all trained more changes will be made to help streamline the processes.

We have received numerous call and emails regarding the changes for college students. Some of the details are still being worked out in the policy department. We hope to have answers to most of those questions for the brown bags.

Speaking of the brown bags, don't forget to RSVP for the upcoming Brown Bags. If we do not get enough of a response we will cancel a meeting and if we get more responses than what the location can handle we will schedule more meetings. Please RSVP Cathy Nguyen at cathy.nguyen@okhca.org

See you all soon!
