## [Reapply now for May eligibility](#)

Insure Oklahoma has completed employer renewals for May. **Employees of businesses scheduled to renew in May should log in to their online accounts and submit their annual renewal applications by April 30.**

To renew their eligibility for the next 12 months, employees can click the "Update/Renew My Application" button in their online accounts, verify that all application information is accurate, and resubmit the application.

No new information should be required unless the employee's situation has

changed since reapplying in March.

---

## **Before you submit citizenship documents, read this!**

Insure Oklahoma's new online enrollment system cross-references applicants' Social Security numbers with a variety of state and federal databases to confirm identity and citizenship. This means that although applicants must meet Insure Oklahoma residency guidelines, **they are no longer required to automatically submit this documentation when they apply.**

If the system is unable to verify this information, an alert will appear in the member portal to upload the documents. Do not submit this documentation unless requested. If it is requested, it should be submitted through the employee's online account, not the employer portal.

---

## **Updated income guidelines**

Insure Oklahoma has updated its income guidelines to reflect annual cost of living adjustments. The new guidelines were effective April 1.
