

Insure Oklahoma will resume subsidy payments later this month.

[View this email in your browser](#)

Dear Employers,

As we indicated in our [letters](#) to employers regarding the reapplication period, Insure Oklahoma has delayed the March subsidy payments and plans to resume payments in April. We expect to issue payments later this month.

The payments will include estimated subsidies for both March and April. These estimates will be based on the amount subsidized to your business in January.

Insure Oklahoma is working to resolve some technical issues with the new computer system and will begin making payments based upon submitted invoice amounts as soon as possible. At that time, we will begin making adjustments to ensure the correct amounts have been paid to your business.

Sincerely,

Insure Oklahoma
